Heather Wittig was present to approach
the board requesting acreage she
purchased from the School District be
rezoned from R1 to R2. Her plan is to

construct townhouses, undecided as whether they would be rental units or homes for purchase and initially starting with 8 units. She noted that the town's zoning setback is currently 250' which is unusually high and in this case would conceal the units behind the trees along hwy 10. Potential tax revenue for the town was discussed as well. Town's next step will be to devise a Town Planning Committee. Special meetings to follow.
